With the exception of UT-055-91-02P, which was not sent to you earlier because of an oversight, these are all open back-logged case files.

UT-055-91-02P is a Plan of Operations within a WSA which has not yet been approved. The claims involved have grandfathered rights, however, the claimants were late filing their 1991 assessment notice and the claims lapsed. The claimants are now appealing the claims status to the Interior Board of Land Appeals. If the decision is against them, the Plan of Operations will be dropped, and both UT-055-91-02P and UT-057-02N will be closed. If it is in their favor, we will continue processing the Plan of Operations, and upon approval will administratively combine with it UT-057-02N, which will be closed.

UT-057-04N, UT-057-27N, and UT-057-36N have been administratively closed and combined with UT-057-41N, with which we are working

with the claimants to complete the reclamation and close the file. UT-057-23N has been administratively closed and combined with UT-057-30N. During our last contact with these claimants, they indicated they were planning to resume operations. We will ask them to send us an updated notice upon our next contact.

We are continuing to work with the operators of UT-057-10N, UT-057-16N and UT-057-18N to get the required reclamation completed and the files closed. UT-057-17N has been reclaimed and will be closed right away. We are asking the operators of UT-057-31N and UT-057-89-02N to update their notices as they have indicated that they are planning to resume operations.

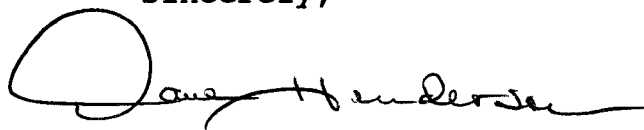

We will contact Continental Lime regarding UT-057-25N. The air monitors which they had placed around their plant are not now in use, but when their new kiln begins operating they may need to set them up again. If so, we will require that they apply for a right-of-way and close the file. If not, we will ask them to perform some minor reclamation and close the file.

On the list is UT-057-20N. The claimant is on probation with the Millard County Sheriffs Department and was released under his families recognizance. He has not submitted an official notice, however we do keep an open case file to monitor his activities as he has created some minor disturbances within the Wah Wah Mountain WSA.

Enclosed is a list of all open Warm Springs case files. There are several on the list which Joelle Burns indicated to us that you do not have. Our records show they were sent to you on the dates listed in the last column. If you still can't find them, please let us know and we will send them again.

We will send a similar letter for the House Range notices in the near future. Should you have questions regarding these notices please call Rody Cox at (801)743-6811.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dave Henderson", with a large, stylized initial "D" at the beginning.
